

## Discussion [-]

### Q1:

What could be the nature and the characters of people from the agrarian culture politically, economically, culturally and socially especially as a regional grouping? Take for example, how 'rice' could impact on their ways of life, attitude and collectiveness/ relationship building culture.

### Q2:

Is new membership possible, why? Can ASEAN cover Australia? China? If yes, why, if not, why not?

10 stripes: 10 Member Countries and also signify the strength of number as one stalk is easy to break but not 10 altogether

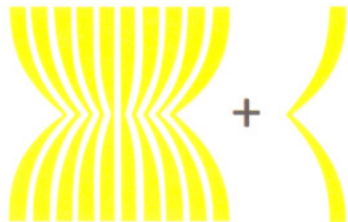

---

Each stripe symbolizing a rice stalk referring to the agrarian culture of the region

(Member States are from different cultures and different religious creeds and yet they plant and eat rice)

---

Easy stalk addition if members are added

---

Four colors signifying...

-  peace and stability (blue)
  -  courage and dynamism (red)
  -  purity (white)
  -  prosperity (yellow)
-
